

Videography Brief

Project title: ctrlZ Student
Freelancer Reel

Executive Summary

This project aims to produce a 30–60 second reel that captures the energy, challenges, and creativity of a student freelancer's life. The reel should highlight the duality of balancing studies and freelancing, while showing the freedom, hustle, and passion that comes with it. The goal is to tell a relatable and inspiring story that resonates with students, freelancers, and potential clients — making ctrlZ stand out as the home of student creativity. The final product should be dynamic, authentic, and formatted for Instagram Reels and TikTok.

Your task

- Film and edit a 30–60 second reel showcasing a “day in the life” of a student freelancer.
- Capture storytelling moments such as:
 - Working in different environments (campus, home, café).
 - Switching between student responsibilities and freelance tasks.
 - Collaboration or presenting to a client.
 - Relaxing or celebrating a finished task (showing balance).
- Edit with engaging pacing, synced to upbeat music.
- Add light branded motion graphics (ctrlZ waves, colors, or subtle logo placement).
- Export in vertical format, optimized for Instagram/TikTok.

Videography Brief

Tips for themes

- Blend cinematic shots with candid lifestyle clips.
- Highlight contrast: books and laptop, study notes and design sketches, etc.
- Use smooth transitions to show "switching hats" between student and freelancer.
- Show emotion: focus, stress, relief, joy.

Target Market

ctrlZ community, students, and Al Salam Bank management
